

COMPASS-PLUS

Psychological Impact, Lifestyle and
Utilities Sub-Study of COMPASS

A two-survey based study

We want to know
how YOU feel about your
screening tests

**All participants who submit both surveys
go in the draw to win
a \$500 Mastercard e-gift card**

We are running a study within Compass, called Compass-PLUS, evaluating a range of aims related to cervical cancer prevention. We want to know what factors (e.g. health, lifestyle, COVID-19, quality of life) may affect women's decision to attend cervical screening and HPV vaccination as well as the psychological impacts of receiving screening test results.

You will receive an email invitation to Compass-PLUS following your reminder letter to attend your exit screen from the Compass trial

If you do not receive this email within a month of your reminder letter and would like to find out more, please contact us at: CompassPlus@nswcc.org.au and provide the RRN located in the top right-hand corner of your letter
